

**TEMPLE COLLEGE
SCHOOL OF VOCATIONAL NURSING
VNSG 1331: PHARMACOLOGY**

Objectives Module 7

Drugs that affect the Immune System

Chapters 49, 50, & 51

1. Discuss the actions, uses, adverse reactions, contraindications, precautions, and interactions of drugs that affect the immune system.
2. Implement important pre-administration and ongoing focused assessment activities the nurse should perform on a patient taking a drug that affects the immune system.
3. Use the nursing process to implement care for a patient receiving a drug that affects the immune system.
4. Identify important points to keep in mind when educating patients and families about the use of the drugs covered in this module.
